CELEBRATING 30 YEARS OF EXCELLENCE

PRODUCT CATALOG 2017
Dear 30th Anniversary Customer,

If you are receiving our 2017 letter, it is because you are one of our valued customers who have helped us reach our 30th anniversary. What you might not know is that Custom Comfort was started in a garage with our founder, AJ Adams, and our plant manager, Gary Newton, building our first BD7020 Donor Bed. Throughout the years we have made quite a few of those BD7020 donor beds but, thankfully, you asked us to build much more, and we listened very carefully. First you asked us to build a Blood Draw Chair, then to make it taller, then narrower, and most recently, wider to solve the needs of a range of patients and facilities. Along the way, you wanted us to add an L arm, a swinging L arm, and a stationary L arm with an extension option for added chair versatility.

Over time the product lines expanded to include Portable Blood Donor Beds, Ergonomically Designed Donor Beds and Chairs, Power Actuator Donor Beds and Chairs, as well as a line for Bariatric patients. Recliners with a 700 lb. weight capacity were also added along with Exam Tables, Computer Carts, Work Stations, Infant Stations, Stools, Modular Cabinets and Free Standing Cabinets. Why? Because you asked us to tweak one thing or another, and build it for you. Over the years, we moved out of the garage and into a 50,000 sq. ft. manufacturing plant. As always, 100% of these products are manufactured in the USA in our Orlando, FL plant. In addition, nearly all of our raw materials are USA made components. Therefore, based on our quality materials, knowledge and experience, and to help us celebrate our 30th anniversary, we will extend our 5 year limited warranty to 10 years for any order received today through the end of 2017. See our website on how to get the 30th Anniversary free warranty upgrade.

We are most proud of our staff and their commitment to you, our customer. Each member takes great pride in their quality workmanship and is dedicated to your deadline. Just last week, one of our shipments was derailed by an avalanche in Montana. Our customer needed the order for two new patient center openings Monday morning. The only option to meet the deadline was to disassemble a new shipment in the factory, carefully load up a rental truck and drive it across the country ourselves. The truck left our Orlando, Florida factory at 10 AM Thursday and arrived in Portland, Oregon at 3:25 PM on Sunday. White glove service was provided free of charge with the VP and President volunteering to make the 50 hour drive. Commitment to our customer is one of the main reasons we are in business after 30 years.

Thank You,

Peter Gaughn

Power Products

With the touch of a button your patients will raise and lower smoothly, quietly, and safely.

Our Power Chairs, Tables, Donor Beds, and Recliner will lower to a height that allows easy transfer of wheelchair patients and those who need a lower than usual seating height. Our Bariatric Power Recliner reclines slowly and steadily, providing a smooth transition from upright to reclined.

ETL Product Certification
Entire Assembly Certification: ETL Listed Mark

Custom Comfort Medtek is the only manufacturer in the industry to have the entire assembly, not just specific components, of their Power Product Line tested and certified by ETL/CSA.

What does the ETL mark mean when displayed on my product?

- The ETL Listed mark indicates that your product has been tested by Intertek, found in compliance with accepted national standards, and meets the minimal requirements required for sale.
- To your distributors, retailers, and customers, the ETL Mark is assurance that the product is compliant with safety standards, having been tested and certified by a third-party organization.

What is the difference between the UL and ETL Listed marks?

Both marks demonstrate compliance to the requirements of widely accepted product safety standards, as determined through independent testing by a Nationally Recognized Testing Laboratory (NRTL). As part of that testing regimen, the product manufacturer has agreed to periodic follow-up inspections to verify continued compliance. Certification Marks demonstrate that the product that bears it has met the requirements of widely-accepted product safety standards as determined through the independent testing of an OSHA-recognized NRTL. As part of that testing regimen, the product manufacturer has agreed to periodic follow-up inspections to verify continued compliance.
Blood Draw Chairs

Our Narrow-series Blood Draw Chair's space-saving design offers all the features you love about our draw chairs but with a smaller footprint! These chairs offer an 19” internal seat width while comfortably fitting in tight spaces 30” or greater. With a 400 lb. patient weight capacity these chairs offer all the flexibility you need caring for your patients while conserving space at the same time.

- Narrow Footprint, only 29” Wide
- Extra-padded Upholstered Arms
- Fully Upholstered or Contoured Seat
- Standard and Tall Models available
- 8” Adjustable Arm Height
- 400 lbs. Patient Weight Capacity

See our full line of Draw Chairs on pages 12-24

Infant Stations

Our infant phlebotomy stations are available in unique designs to meet your exact requirements. All offer durable welded steel frames that feature an epoxy powder coating for a clean durable finish. The 18” x 33” bed area is fully padded and upholstered in medical grade vinyl for extra comfort.

The MA3014-AH features a fully adjustable working height. The hydraulic lift mechanism allows the working area to be adjusted from 35” to 43”. The MA3014-FS freestanding station is light enough to easily move around and yet durable enough to have a 150 lbs. weight capacity. Both the MA3014-WMH and the MA3014-WMV offer the space saving wall-mounted design. When not in use the station folds up against the wall with a depth of only 8” to maximize space.

• 33”W x 18”D Upholstered Cushion
• Raised Sides Will Help Contain the Infant
• Velcro Strap Adds Safety
• Pneumatic Shock Helps Raise/ Lower the Station
• Folds Up Against the Wall to Maximize Space
• Frame is Designed for Both 16” or 24” Studs
• 150 Lb. Weight Capacity
• 7¾”W x 10¼”D Supply Tray

See all of our Infant Stations on pages 26-28

Part of the difficulty of being a Phlebotomist is not having donor beds that you can easily move from center to center, or room to room. That’s where Custom Comfort Medtek can help! We offer a vast selection of beds, including our Portable Folding Donor Bed. This product is easy to move, fold, and transport, and even easier to find space for in storage when you’re done using it! These portable beds are perfect for any blood drive campaign, and with a variety of colors to choose from can be customized to fit any blood donation center.

- Lightweight - Only 36 lbs. Each
- Folds to a Compact 8" 
- Reversible Backrest
- Durable Vinyl Strapping
- 300 lbs. Patient Weight Capacity

See all of our Lounge Chairs on pages 46-48
When ordering your donor beds, don’t forget to order the Optional Transport Kit and we will mount it to one of your chairs.

JA2018
- Lightweight - Only 27 lbs. Each
- Stackable Design
- Durable Vinyl Strapping
- Reversible Backrest
- 350 lbs. Patient Weight Capacity
- $629

The tubular aluminum frame is durable yet lightweight for easy transportation. The vinyl strapping offers comfortable full support seating and easy cleaning. The JA2018 features a reversible backrest allowing you to use either end as a backrest. The leg area may also be elevated if a reaction occurs. The JA2018 comes complete with an 8” height adjustable armrest and tray unit.

Add the optional wheel kit when ordering your chairs and you can turn one of your chairs into a wheeled dolly. Stacking up your chairs means easier storage and fewer trips back to the truck or storage room.

- Lounge Pad

4040-AR
- 22 - 28" Hydraulic Adjustable Height Stool
- 18" Stainless Steel Foot Ring
- 3" Padded Seat
- 400 lbs. Weight Capacity
- $610

Anywhere you need a hands free height adjustable stool, the 4040-AR is the right stool for you. The hydraulic pump raises and lowers the seat from 22" to 28". The pump is raised by depressing the foot pedal with your foot. The swivel seat can be held in place by a brake, simply lift up on the foot pedal. When you are ready to lower the seat, press the foot pedal all the way down. Our stainless steel foot ring will not flex or sag under heavy use. With a 400 lbs. capacity and 16" wide seat our new 4040-AR will accommodate just about anyone.

Our CC1030 Computer Cart features a heavy duty steel frame and 4” quiet-casters providing super-sturdy mobility for Technicians on the go! The spacious lower shelves provide ample room for computer towers, printers, label printers, and can also be accessorized with large storage drawers. The oversized top provides ample clutter-free work space with the small-footprint Monitor Stand and Wire Management System included.

- Powder-Coated Welded Steel Frame
- 42"H Workspace
- 2 Large Storage Shelves
- Monitor Stand, Keyboard Tray w/Mouse Pad, Wiring Harness included
- 4" Heavy Duty "Quiet" Casters
- Optional Phlebotomy Accessories

See all of our Supply Carts on pages 62-68
Our BEST SELLING mobile supply cart series is perfect for any department where portable lockable storage is needed to conform to current and future regulations. Our carts become your carts when you have fully customized a model to your specific needs.

The aluminum cart frames are reinforced for maximum strength and durability. The 4” casters with locking brakes enable the cart to be easily moved long distances. You can add a side tray or side table for extra work surfaces or choose from sixteen different options to meet your specific needs.

The fully lockable JL1802 Mobile Work Station provides a simple solution for your phlebotomy supplies. The spring-loaded adjustable work surface will accommodate all your technicians. The convenient 12½"W x 17½"L x 5"D pull-out drawers can be divided into various compartment sizes. A separate lock secures the removable tray when not in use. Several options are available which allow you to customize the cart for your individual applications.

Owning your own island has never been easier. This mobile island series of carts is the perfect way to organize everything you need into one easy to access (and secure) place. Featuring a slide out shelf and lockable Tambour door, the island can be just what you need!

- $254
From the day we introduced our laminated supply cabinets in your choice of accent colors, they have been a hit. Our SC Series cabinet shells come standard in Platinum laminate; but, you can choose a different shell color from our large selection of laminate colors on pages 88-89. Each SC series cabinet comes in your choice of a free standing version or with 2” ball casters so you can easily move it around the room.

Now we made them even better by offering a slightly smaller “Express” version with easy to clean plastic drawers. They come with both floor glides and casters so you have your choice to make them free standing or mobile.

See all of our Mobile Supply Cabinets on pages 70-80

Mix and match our finished cabinetry to create the right environment to fit your specific needs.

Our cabinets are built to last. Our cabinets are constructed with a combination of glue, screws, metal fasteners and staples. We completely cover our cabinets with solid laminate. We only use “silent” 60 lbs. rated drawer guides for everyday carefree usage. So make it easy on yourself and...

Say NO to:
- Dealing with ongoing construction messes
- Contending with noisy power tools
- Scheduling contractors
- Security issues with workers
- Cleaning up daily construction debris
- Environmental health concerns from solvents and glues

Say YES to:
- Saving construction time
- Your choice of five modular cabinets ranging from 12” to 72” long
- Your choice of four modular wall cabinets from 24” to 72” long
- Easy installation of wall cabinets with our unique “rail” system
- Easy installation of our modular floor cabinets with built-in coving notch
- Complete assembly; simply fasten the counter top with built-in backsplash
- Quality controlled environment manufacturing
- Rearranging room settings as your needs change
- Moving them with you if you relocate

When you need a Bariatric stepstool that will safely accommodate your larger patients and will roll around the room with ease, we have you covered.

Our CCI1000-X has spring loaded casters which will allow you to easily move the stepstool around the room or down the hall with one hand. But as soon as you step on the first step the spring loaded casters will allow the rubber feet to bottom out providing a safe and sturdy platform.

We don’t just say we can pass. **WE DID!**

This product has been built according to California Technical Bulletin 133. The test results show that the product passed both Criteria A and Criteria B of the California TB-133 Burn Test.

This product has passed the California TB 133 Test Procedure as outlined in the Bureau of Home Furnishing’s Technical Bulletin Number 133 (commonly referred to as CAL-133), dated January, 1991.

The tests were performed by an independent third party and report #07-0924-142439 certifies that tests were conducted by a professional test engineer or by supervised qualified technicians. It also certifies that all equipment used in the testing process is suitable for the test objectives.

Many states have adopted the California Technical Bulletin 133 (TB 133) flammability test method due to its comprehensiveness as a full scale fire test for upholstered furniture. It is said to be the most stringent fire test for upholstered furniture in the world. This was a Flammability Test Procedure for seating furniture for use in Public Occupancies.

6. DELIVERY

We custom manufacture each order with your specific needs in mind. Please allow up to 4-8 weeks for delivery. Please notify our Customer Service Department of any order which requires RUSH delivery, and we will do our best to accommodate you. A $50.00 RUSH fee per item may be added to your order.

* Florida customers, unless a non-profit certificate is on file.
All prices are published in our catalog and on our website.

Due to the inherent biohazardous risk associated with blood collection, upholstered furniture cannot be returned once removed from their original packaging. If the item is defective in any way, the defective part will be replaced or repaired free of charge. If a claim is made, please keep all packaging materials for 15 days. Thank you for your cooperation.
Thank You for 30 Great Years from Custom Comfort Medtek

We wish to take this opportunity to thank you for your business and support throughout the years. Since 1987 Custom Comfort Medtek has been listening to your suggestions and has designed products to fit your needs.

**Made in the USA**

For over 30 years we have been manufacturing medical furniture in Central Florida. In addition, the vast majority of the raw materials and components we source come from domestic vendors.

**GSA, GPO's and Other Purchasing Platforms**

Custom Comfort Medtek is proud to have begun our 11th year as a GSA Contract Holder, Contract V797D-60729. We are also a long-standing member of Attainia’s on-line healthcare capital equipment planning, budgeting and tracking supplier community. CCM has recently joined the OpenMarkets Health platform, a software-driven marketplace that brings healthcare providers and equipment suppliers together to facilitate transactions. Lastly, we are continuing the process to align ourselves with several Group Purchasing Organizations (GPO’s). Moving forward, these GPO contracts will enable Custom Comfort to offer our product line to the healthcare providers that purchase through these organizations.

**More Options Than Anyone and We Customize**

We offer 32 different medical grade vinyls and 27 different wood laminates. We also have more standard options for each piece of equipment than anyone. And if that were not enough, we have the trained staff to customize or create just what you need and want. Call us and we can discuss your specific needs.

**How to Place Your Order?**

Our Customer Service team is available by phone from 8:30 AM to 5:00 PM Eastern time Monday through Friday at 407-332-0062 or toll free at 800-749-0933. Fax orders may be placed 24 hours a day, 7 days a week at 407-332-0025 or toll-free at 800-842-7718. You can also e-mail your purchase orders 24/7 to orders@customcomfort.com. Lastly, we are excited to now offer the ability to purchase from our website, [www.customcomfort.com](http://www.customcomfort.com).

**General Terms of Sale**

All invoices are due 30 days from order shipment. Invoices not paid within 30 days become past due and immediately payable. Visa, MasterCard and American Express are also accepted.

**Delivery**

We custom manufacture and assemble each order with your specific colors and needs in mind. Please allow up to 3-4 weeks for delivery. Please notify our Customer Service Department of any order which requires a RUSH delivery, and we will do our best to accommodate you. A $75.00 RUSH fee per item may be added to your order.

**Need It Now? Check Out Our Quick Ship Products!**

Select any of our Quick Ship products and we guarantee to ship it to you within 1-2 business days. Throughout our catalog you will see some of our most popular items noted with the Quick Ship Logo. When you see the logo, you can order that item with the utmost confidence knowing it will arrive in time to meet your deadline! Same Day Shipping with Overnight Service is also available. All Quick Ship products are available in Dark Blue only. For complete program details call our Customer Service Group at 800-749-0933.

**Warranty**

Custom Comfort Medtek manufactured products carry up to a 5 year limited warranty. For complete warranty details, please visit our website [www.customcomfort.com](http://www.customcomfort.com). We are also offering a 30th Anniversary Customer Appreciation Warranty Reward in 2017. Details are provided on the inside cover of this catalog.

**Returns**

Each piece of furniture is built with specific needs and color choices in mind. Due to the inherent biohazardous risk associated with blood collection, custom upholstered furniture cannot be returned once removed from their original packaging. If an item meets our return criteria it may be returned with a 25% restocking fee. Additional cost may be incurred if the returned goods are not properly packaged causing damage.

Sincerely,

Chad
