POWER BLOOD DRAW CHAIR

1202-LXL/AP

Power Blood Draw Chair

1202-LXL/AP

The 1202-LXL/AP Power Blood Draw Chair is advantageously designed to allow medical professionals to raise or lower their patient with a simple foot tap. With minimal effort and without ever having to take your eyes off the task at hand, you can raise your patient anywhere from 21" to 29", and all you need is a standard 110V outlet to do so.

Work smarter, not harder with a new Power Blood Chair from Custom Comfort Medtek. The chair also comes with a five-year warranty on the fully welded steel frame.
